Trainer Information

Cathy Warner has over 40 years of nursing experience, the last 20 of which have been in Primary Care. She currently works as Lead Respiratory Specialist Nurse for a large, 8 practice PCN. Cathy holds post graduate qualifications in Asthma, COPD, Spirometry and Allergy and has recently completed a Masters Degree in Respiratory Practice; as well as being a Non-Medical Prescriber. She is the Guardian of the Wiltshire Airways Nurse Group (WANG) which she was instrumental in setting up several years ago. Cathy has extensive experience as a Trainer, having worked both as a regional Trainer for Education for Health, a Facilitator on the IMP2ART project as well as her own independent training practice, CW Respiratory.

To book a place/s email

bookings@networkforpractices.co.uk

Our acceptance of your booking brings into existence a legally binding contract between us on the following **Terms & Conditions** - If places are booked but cancelled before payment has been made or a candidate DNAs, the fee will remain due. Cancellations will attract a refund if the course is subsequently fully booked. To avoid any confusion, we ask that **Cancellations are by email only**. We will make every effort to resell the cancelled place. Where places are free a £25 charge will be applied to cancellations/DNAs. Payment is required within 30 days from date of invoice.

Paediatric Asthma Training Day

Date: 10th September 2024
Times: 0930-1630
Venue: The Peppermill Hotel, 40 St. Johns Street, Devizes, Wiltshire SN10 1BL
Places available: 15
Fee/s: NfP Members £105
Non-Members £150

This workshop is suitable for: HCPs who will be seeing and assessing children and young people in a primary care setting. It is designed for those who already have some knowledge of asthma, drugs and diagnosis.

Introduction

The care of children and young people with asthma is mostly undertaken in the primary care setting. This course will consider the aspects of care and diagnosis that make this group of patients challenging to many clinicians.

Learning Outcomes

- Identify the challenges in diagnosis of children and young people
- Be aware of the differences in objective testing
- Identify the drug licencing issues that are relevant to this age group and determine an appropriate course of treatment
- Identify relevant guidelines and sources of support and information

Topics covered:

- Diagnosis, probability and objective testing
- Potential differential diagnosis
- Appropriate medication
- When to refer on
- Asthma action plans for children and young people

"Well structured. Informative. Very good day"

"Fantastic update, so much information and a good range of teaching"

"Very good speaker. Cathy was very knowledgeable and engaging"
