One in four people in the UK will experience a mental health condition this year, according to Mind.

Given these statistics, it is very likely that you, as a line manager, will at some point manage an individual with a mental health condition in your team. It is essential that you are able to support them.

This short workshop will help you as a line manager to:

- Understand what mental health is
- Be aware of the employment law around mental health and when it might be appropriate to seek external support
- Know what to do when dealing with an employee who may be struggling with poor mental health
